## 2021 Annual Conference

The IOGCC Annual Conference will be held in beautiful Santa Fe, New Mexico on November 7-9, 2021. The annual conferences have proven to be invaluable opportunities for the exchange of information and ideas.

This meeting will bring together a wide range of participants, including governors, state and federal regulatory officials, oil and gas industry representatives, and non-governmental organizations, to advance IOGCC's mission to champion the conservation and efficient recovery of domestic oil and natural gas resources while protecting health, safety, and the environment. A lineup of distinguished speakers will provide timely and relevant information on subjects important to our membership.

We look forward to seeing everyone and working together to have a successful event in November!
